Vicky,

Regarding my e-mail of 6/21; I checked the MRP, and GW-24-1 was removed from your requirement list after fall 2004 monitoring. I am sorry that I did not pick up on it before. I have now de-activated the site in the database so that it will not show up as missing in the future.

Your monitoring is complete for Soldier, Dugout, and Banning for the first quarter of 2005, except for the length of discharge information for the UPDES sites. If you e-mail me that, I will get it in the database for you.

Please let me know if you have questions.

Thanks,
Dana
